

UNITY

WHAT IS UNITY?

UNITY is an interactive public art project created by Vessence Corporation CEO, Nancy Belmont, as a response to the divisiveness and negative rhetoric in American media. The project raises consciousness about the labels we give ourselves and others, and explores how those labels both support and limit building interconnected, interesting communities. UNITY is a larger-than-life, temporary structure that helps us celebrate our uniqueness and strengthens our ties to each other. The project consists of 32 posts, each with identifiers such as, "I'm a parent," "I speak English as a second language," and "I identify as LGBTQ." Participants tie colorful yarn to posts that reflect their identities. Each participant's yarn intertwines with others' to create a web of interconnectedness. In the end, we see that we are all connected by something, and it's our diversity that builds a strong and vibrant community.
